MBBS COLLEGE

Selection Process

How to choose MBBS colleges?

1. Where MD/MS studies is available.
2. Good infrastructure.
3. Good number of patient flow because if patients are not available, how will the students learn.
4. Proper location.
5. Fees that fit in your budget.
6. Proper hostel facility.
7. The college has never been disapproved by MCI or any other Indian organization. (whatever the reasons maybe)
8. Old colleges preferred.
9. All these parameters may be considered for a good college but due to less number of MEDICAL colleges in India where around 16.5 lakh student appears for the exam and almost 80,000 seats are available, so in this situation we cannot compromise the value of any medical college. Till date acquiring a seat in a Medical college in India is considered as an achievement. In other words getting an admission in a college will enlighten your future but leaving a MBBS seat after acquiring it will not be a proper step to be taken. In India to get admission in any MBBS college is like to meet God. If you meet our EXPERT TEAM they will guide you to a good college based on the guidelines and above parameters.

Urgent Information for

MBBS Candidates

If you are applying in any state or college whose fees start from 15-19 lakhs to 25 lakhs and your NEET score is below 200 and still you are thinking that you will not get admission from less than this then you are wrong. Below 200 marks students can also get an admission in a college for 8-11 lakhs per year T.fees.

You are deprived of the proper information. Proper choice of college and state and till which round counseling participation should be done should be known else you will end up paying double the amount in presence of the marks obtained only due to less of information. Our EXPERT team will guide you to take admission in college for students securing below 200 marks within 8-11 lakhs per year T. fees that also neither by paying any donation nor any extra charges.

Big News For **NEET** Students

- ➔ If your rank in NEET is low then don't worry.
- ➔ Our experts will guide you to get best college on the basis of your NEET rank.
- ➔ All kinds of solution in medical admission (MBBS in India, BDS, BHMS, BAMS)
- ➔ MBBS in India strictly without any donation.
- ➔ Know NEET cut-off list of 2016, 2017, 2018, 2019 & 2020 of all the states like UP, MP, Bihar, Jharkhand, HP, Haryana, Tamilnadu, Karnataka, Assam, Odisha, Uttarakhand, Chhattisgarh etc.
- ➔ Provide NEET cut off list of Pvt. & Govt. Colleges of MBBS in India.
- ➔ Right from the first step i.e. form filling up to admission, our team is with you. Enquiries about state, colleges etc, any sort of confusion-contact our experts for free advice.
- ➔ All admissions will be done through **THE CAREER SOLUTION** 1 lakh % **WITHOUT DONATION**. Since NEET has been implemented in 2016, all donation and transaction games in MBBS colleges have been closed down completely. Even the owner of the medical college cannot take admission without merit and without attending the counselling even through management quota.

Therefore, if a person misleads you that you can get admission through donation in any college, or it will cost money to get your name in merit list, then he is fooling you. **THE CAREER SOLUTION** will help you to get admission **WITHOUT DONATION**.
- ➔ Team of our experts analyzes each and every college by working closely over your NEET rank, checks all our previous college records to find where and how many seats got filled or stayed unfilled at your rank? What is the difference between last rank of good college and your rank? How long you must wait for counselling so that you can get best college.

Example- our team will analyse all the possibilities of 1st round or 2nd round or 3rd round or mop-up round.
- ➔ If you have qualified NEET with only qualifying marks, even with minimum marks and even if you have not scored good marks, and if you trust 100% on team of our experts, 1 Lakh % our team claims that you will do MBBS from one of the best college in India, only you have to follow 100% of our expert team's proper guidance and there is no need to spend your money, your source, or your brain, from the filling of the form till admission. After giving your details along with your rank, you should fully commit your work to our team and wait.

Big News For NEET Students

- ➔ Those students who do not qualify NEET cannot do MBBS from any part of the country or abroad at any cost. There is no possibility of admission by any means.
- ➔ Those who have secured only qualifying marks for example- 147/720 (GENERAL), 113/720 (OBC), 113/720 (SC / ST) they still remain in the race of admission. Now for the remaining students the important thing is - what tricks will apply? How to choice-lock? Which mistakes are not to be done? Here our experts will give you the lead in the race against other students who did everything without any accurate information and guidelines and even if they make a very small mistake, this same mistake will push them back and out of the race. And you will get success in getting the seats.
- ➔ Our expert team unit will very carefully create a strategy for you and at the right time, in the right college you will have your entry 100% confirmed.
- ➔ State wise counselling dates, opening and closing date of counselling, when and from which state to fill up the form, when to choice-lock, when to deposit DD etc. for any information and regular updates regarding counselling and NEET contact our experts.
- ➔ There will be just one chance in the entire counselling process, our expert team will tell you that exact time.

Students Pursuing **MBBS** from Nepal, China, Russia, Ukraine, Bangladesh, Georgia **BE AWARE !**

HAVING SNACKS ON THE CERTIFICATE !

- **Danger alert:** Students pursuing MBBS from foreign should know that after completion of the course and stepping in India, one have to perform in MCI conduct the exams that is called FMGE and only qualifying will lead one too...

1. Practice anywhere in India

2. Give away service to any hospital as professionals

3. Can pursue MD/MS or any other optional courses in India.

- **If** the student dosen't qualify in the exam, then they even can't stay in foreign country because the student visa will expire and hence return is inevitable.
- **Few** individuals, the brokers and foreign colleges hide away the facts and keep students in dark for money.

- **What's** the truth??

- **Truth** is the exam named MCI (FMGE Exam) is so difficult that only 3 to 7 percent students mostly pass the examination and almost 93 to 97 percent candidates fail out. A student will be home bound after the failure and medical line will become a dream.

- **One** more discussed topic is, these students get false notification that if they fail, can attempt twice and hence will qualify some day.

- **When** someone won't pass the exams in the 1st attempt, it will gradually become more difficult due to lack of patience and concentration, hence cracking MCI will get challenging and time containing.

- **To** pursue MBBS in foreign, NEET qualifying is now mandatory and returning India MCI (FMGE Exam) examination clearence, so both entry and exit exams are inprohibitable.

- **Some untrue facts:**

1. Few individuals comotions the news that students studying in India too is valid for MCI (FMGE Exam) or exit exam//no rule validation exist or will be existing in future//100 percent untrue version// after studying in India, no exam has to be given.

2. Second false news is no MCI (FMGE Exam) exam is needed for qualifying students of Nepal, once stepping outside India, MCI exam is mandatory be it in Nepal or America

Students Pursuing MBBS from **Nepal, China, Russia, Ukraine, Bangladesh, Georgia** **BE AWARE !**

HAVING SNACKS ON THE CERTIFICATE !

3. Having snacks on the certificate: if a candidate obtained MBBS from foreign countries doesn't pass out MCI's exams, which contains 97 percent failure rates, can't even return back to foreign cause student visa too will expire until then, so certificate will convert into a "snack holder" only
4. Stay away from the greed of money savings: In foreign countries, the expenditure of MBBS course is quite pocket friendly with 8 to 9 lakhs package for starting. While studying in India will cost from 40 to 50 lakhs fee more.// Somehow now or later will qualify in MCI// Students gets submerged in this "now and later" strategy cause the exam is very hard and difference in climate and diseases leads to 97 percent failure rates.

Big News for NEET **Non Qualified Students** **GET DIRECT ADMISSION IN THESE COURSES** **ON THE BASIS OF +2 MARKS**

- **B.Sc in Accident and Emergency Care Technology**
- **B.Sc in Cardiac Technology**
- **B.Sc in Cardio Pulmonary Perfusion Care Technology**
- **B.Sc in Critical Care Technology**
- **B.Sc in Dialysis Technology**
- **B.Sc in Medical Laboratory Technology (M.L.T.)**
- **B.Sc in Operation Theatre & Anaesthesia Technology**
- **B.Sc in Radiology Imaging Technology**
- **B.Sc in Optometry**
- **B.Sc in Physician Assistant**

Advantage of **NEET** Non Qualified Students

- **BIG NEWS FOR NEET NON QUALIFY STUDENTS**

- >NEET Non Qualify Students

- >No Problem! No Worry!

- If you are Non Qualify in NEET then Not To Worry!

- 2020 NEET Qualifying Students cut off was 147-GEN, 1137-SC/ST/OBC but later Govt. reduced it to 113-GEN, 87-SC/ST/OBC. For which students were eligible for BDS/BAMS and other courses and took admissions in these courses. This year also Non qualifying candidates can meet our Experts for the complete information whether cut off will be reduced afterwards or not and even if it reduces till when are the possibilities.

- So if you did not qualify Neet then meet our Experts and know about the cut off. And with NEET non Qualifying Marks whether MBBS/BDS/BAMS admissions will be possible.

Truth Behind EXIT EXAM

1. It is clearly mentioned that EXIT EXAMS will be conducted from 2022.
2. How the exams are going to be carried out is still not clear. Some agents who are carrying out admissions in foreign countries are spreading false rumors so that the students get confused and take admissions in foreign countries. They are luring the students by saying that no specific decision has been taken regarding the exam which will be held in 2022. But the people must be aware of these false commitments and be safe from any further experiment until 2022.
